

## Message Logging

The screenshot shows a web browser's developer console with the 'Console' tab selected. The interface includes a toolbar with icons for Elements, Console, Sources, and a search bar. The console displays several log messages:

- Message Logging: Giga Pet app started** (script.js:24)
- Log Info: Pet information loaded** (script.js:25)
- Log Warning: Energy should not go above 40** (anonymous) @ script.js:26
- Log Error: Example error message** (anonymous) @ script.js:27
- Log Group: Pet Info** (script.js:30) containing:
  - Name: Theo** (script.js:31)
  - Weight: 30** (script.js:32)
  - Happiness: 50** (script.js:33)
  - Energy: 20** (script.js:34)
- Log Custom: Styled message** (script.js:37)

A table is displayed for the 'Log Group: Pet Info' message, showing the following data:

| (index)   | Value  |
|-----------|--------|
| name      | 'Theo' |
| weight    | 30     |
| happiness | 50     |
| energy    | 20     |
| ▶ Object  |        |

## View messages logged by browser

The screenshot shows a web browser's developer console with the 'Console' tab selected. The interface includes a toolbar with icons for Elements, Console, Sources, and a search bar. The console displays several log messages:

- GET http://127.0.0.1:5500/missing-file-example.json 404** (Not Found) (script.js:113)
- Uncaught TypeError: Cannot read properties of null (reading 'name')** (script.js:118)
  - at causeTypeError (script.js:118:23)
  - at HTMLButtonElement.onclick (index.html:49:46)
- Violation example: long-running JavaScript task** (script.js:125)
- Bug reproduced: energy before fix = 120** (script.js:131)
- After fix: energy = 40** (script.js:135)
